Core skills that our course emphasize on :

An Aaya or a Professional Housekeeper requires a variety of skills to perform their duties effectively :

Communication skill

Housekeepers should have good communication skills to be able to interact with their employers, understand their needs and preferences, and update them on the work progress.

Decision making

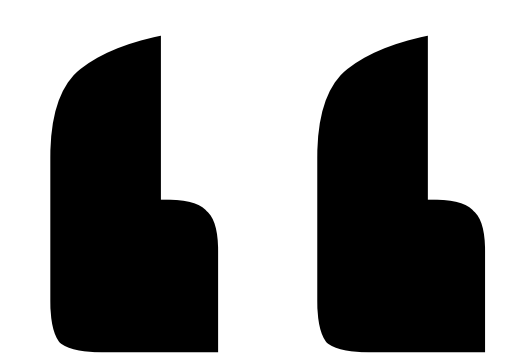

We train to have excellent organizational skills to keep track of their cleaning schedules, manage cleaning supplies, and ensure that everything is in order.

Time management

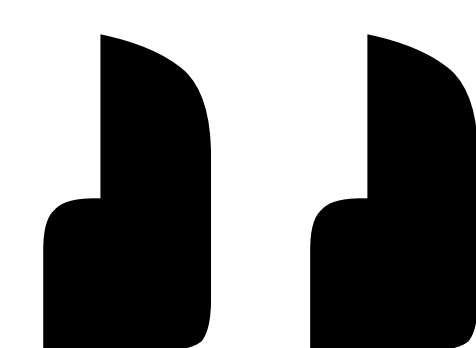

Housekeepers are usually expected to complete their duties within a specified time frame. They need to be efficient and manage their time well to ensure that all tasks are completed on time.

Attention to detail

Housekeepers need to pay attention to small details and be able to spot areas that require cleaning or attention. They should be meticulous in their work to ensure that the house is kept in good condition.

We help you to broaden your horizon in the Caring, Sharing and Loving Job Role.
